Worksheet
Copyright Laws and Royalties

Name: ___________________________  Date: ___________________________

Songwriter royalty = $0.0455 per song.

If the whole school bought your song, how much money would you make?

____________________________________

If half the school bought your song and half the school downloaded it illegally, how much money would you make?

____________________________________

If ten people bought your song and the rest of the school downloaded it illegally, how much money would you make?

____________________________________

The Recording Industry Association of America reports that 63% of U.S. consumers illegally download music. How would you feel if more than half of the people who listened to your song had illegally downloaded it?
